

The People's Column

Bryan high school has acted wisely in adding a commercial department. The tendency in our educational circles today is to try to make education as practical as possible. Since the war women have taken a place in industry, and there is a demand that they should be educated along this line, as well as the men. In the past our boys and girls have had to go to Tyler, Waco, Dallas or Houston for commercial work, but now they can acquire an education of this kind cheaply by staying at home.

Al G. Barnes Circus To Be Here Oct. 5

An entirely new angle of the circus business was brought to light today by C. J. MacDonald, director of publicity for the Al G. Barnes circus which shows here Saturday, October 15.

The old time cook house is a thing of the past on the Barnes circus, Mr. Barnes having decided that since the circus receives its patronage from Bryan, all the cash possible should be spent in Bryan. A cafeteria is still maintained for the benefit of the working men who must needs rush in and eat quickly during the early morning hours, but by far the big majority of the 1080 employees of the circus hunt out the local eating houses and eat just as do ordinary Bryan folks.

BRYAN BASEBALL FANS BELIEVE PIRATE SUPPORTERS QUITE SCARCE THAT YANKS WILL COP SERIES

Baseball fans of Bryan are almost unanimous in the opinion that the New York Yanks, regarded as one of the strongest teams in American League history, will win the World's Series, which starts today in Pittsburgh. The Pittsburgh Pirates, pennant winners in the National League, have just emerged victorious in the most hectic campaign the National League has ever known. The Pirates are considered to have been 30 per cent stronger than any other club in the league, although they nosed out the St. Louis Cardinals by only a game and a half.

Here are a few local expressions:

Supt. H. L. Durham: "The New York Yanks will win the World's Series."

Rev. H. H. McCain: "I am not a fan."

Colonel C. J. Nelson of A. and M. College: "The New York Yanks will win. They have a terrific hit-

45,000 ATTEND OPENING GAME WORLD SERIES

DONIE BUSH AND MILLER HUGGINS BOTH CONFIDENT AS SERIES OPENS

(By Associated Press)

FORBES FIELD, Pittsburgh, Oct. 5.—With a record Pittsburgh crowd of nearly 45,000 persons looking on, the 1927 world series opened today with the New York Yankees opposing the Pittsburgh Pirates. The big stands were jammed to utmost and there were thousands of disappointed fans on the outside listening to the cheers of the more fortunate. Both managers, Miller Huggins, and Donnie Bush, Pirates, repeated their faith in their pennant winning players. Each professed to be confident of eventual victory. Pittsburgh sent Ray Kremer, star right-hander in to pitch, with Earl Smith doing the catching. New York depended upon Waite Hoyt, who is a right-hander pitching and Collins catching. Each team scored one run in the first inning.

NEW YORK WINS
The New York Yanks, heavy favorites to win the World's Series, barely nosed out the Pittsburgh Pirates today in a fierce struggle for supremacy, 5 to 4. The Yanks got off to a commanding lead by pounding Ray Kremer, but John Miljus, rookie pitcher up from the minors, stood the Yankees sluggers on their collective ears. Waite Hoyt, former Brooklyn school boy, and Wiley Moore, baldheaded farmer from Oklahoma, pitched for New York.

Running contrary to prediction, there were no home runs. However, the noted sluggers, Paul and Lloyd Waner of Ada, Okla., and Babe Ruth and Columbia Lou Gehrig of the Yanks came through as hitting stars.

The pitching was of the highest order, especially that of John Miljus and Wiley Moore, both recently of the bushes. In the final analysis it was errors by Pittsburgh that gave the Yanks the first game.

Brazos Members of Clubs Are to Recieve Trips

Club records and exhibits made on last Saturday result in the following named club members winning trips to the Educational Encampment at the Dallas Fair: Joe Corroppa and Sam Degalia of Steele's Store, Lindsey Lawless of Kurten, John Conaway and Herbert Jones of Reliance, and Morris Williamson of Route 4.

The Bryan Rotary Club will pay transportation for these boys to Dallas, and the Fair Association will entertain them free of charge during the encampment. Johnnie Ferrone and Bryan Hearne were also winners, but on account of ruling that club boys who had visited the fair before could not go this time, the honor was passed on to those named above. Of course, this ruling will in no wise interfere with competition for Chicago trip, or other prizes to be awarded later.

County Agent Beason will leave with the club winners, Monday, October 10, for the Dallas Fair. Miss Givens, Home Demonstration Agent, will go with the girls a week later.

Charges of insubordination and lack of patriotism have been made against William McAndrew, the nationally famous superintendent of Chicago's public schools, by Mayor Thompson. The charge against McAndrew is that he is a sympathizer of Great Britain's. Mayor Thompson has a lot of business to bring charges of lack of patriotism against anyone. He is such a demagogue that he made King George the chief issue in his race for Mayor and there are enough ignorant people in Chicago for him to make such bunk stick. Thompson was elected because of the large thug element in the city.

Al Smith, Governor of New York, in a recent address before the New York State convention, said that he was opposed to four-year terms for Governors. Four-year terms have been agitated by students of political economy for many years. Four-year terms tend to make for stability and economy in government, which should more than offset any undemocratic features in comparison with two-year terms.

Gov. Dan Moody emphasized in his Hillsboro speech the importance of connected highways. "So that man might travel whenever and wherever he desired, no matter what the weather conditions." We wish he would come to Brazos, Waller, Robertson, McLennan, and a few other counties along highway No. 6 and preach that doctrine.

The Brazos County Singing Convention yesterday was a success despite the most unfavorable weather conditions. This affair was well planned and managed, and the officers of the organization deserve much credit for its success.

It was rather surprising that the jury in the Rebecca Bradley Rogers trial stood 9 to 3 for conviction. It was generally believed that she would be acquitted on the charge of arson. A woman in Texas usually fares mighty well at the hands of a jury of men.

Oil and gas have enriched the coffers of the University of Texas to the extent of more than \$7,000,000. Now the ex-students' association of the school is going to make a drive to raise \$400,000 for an auditorium to afford an outlet for the gas.

The United States admires the manner in which St. Louis is handling its recent tragedy. The president of the Chamber of Commerce of St. Louis has said that the city wanted no outside help.

The recent rains again showed the high price the people of Brazos county are paying for not having good roads. A bond issue would be much cheaper.

The annual pageant of the Saddle and Sirlol Club is to be held soon at A. and M. College. Love that horses are not entirely extinct.

There is much interest all over Texas now in natural gas as there was a few years ago over bananas.

The people of St. Louis, which has just been struck by its most fatal disaster since 1896, have the sympathy of all. The tragedy of such a tornado can be understood only by those who have lived throughout one of them.

We probably will not have any more trans-Atlantic and trans-Pacific flight tragedies until Spring.

WITH OUR EXCHANGES

THE HAPPY MAN

The millionaire, a rich man, in his mansion on the hill, has more money than I, but just what can he buy with it? Three meals a day, first of all. They will doubtless cost more to serve than my three, but he cannot enjoy them any more than I can mine. A roof over his head. It is a wider and steeper roof than mine, and more rain will run off it; but the rain that runs off mine is just as wet, and underneath I am just as dry. A good night's sleep, if he's lucky. He can own more of the world's surface than I. But try as he may, he cannot breathe up any more of its air; he cannot absorb any more of its sunshine; he cannot more of the ocean to give him any more invigorating bath; nor the evening stars to shine brighter over his estate. The world is full of pleasant sights and sounds and smells, but his eyes and ears and nose do not bring him any sensation a particle more sweet than mine bring to me. The world is full of lovely women, and each of us can love and marry only one at a time. Compared with the blessings we have in common, the few paltry blessings which he has and I have not are insignificant. And you will not rightly call him a happy man who possesses much; he more rightly earns the name of happy who is skilled in wisely using the gifts of the gods and in suffering hard poverty, and who fears disgrace as worse than death. —Mineral Wells Index.

Men's Wesley Bible Class Elect Officers

The Men's Wesley Bible Class of the First Methodist church Sunday school, Sunday, closed a very successful three months campaign during which under the direction of a special committee: W. F. Gibbs, H. N. Cochran, T. A. Adams and O. A. Ashworth have secured some of the best speakers in Bryan for their Sunday morning lessons. Words of commendation for the success and enthusiasm this committee has brought to the class was expressed by President George W. Johnson.

During a business session new officers were elected for the year as follows: O. A. Ashworth, president; R. C. Franks, J. B. Christian and M. M. Erskine, vice presidents; Hiram T. Downard, secretary-treasurer; Oak McKenzie, teacher; and Mrs. Lee J. Rountree, assistant teacher.

Highway Notes

The rain helped the roads of the county, said Division Engineer John E. Blair. "We have done much drainage and grading on the roads and this rain was the first to fall since completed and it was helpful rather than damaging to them," he said.

Pitts Bridge protection against flood waters is just about completed. The river is on a 12 foot rise but at a standstill, and expected to begin to fall by afternoon. The drainage on this road, which is a part of Highway No. 21, is in better condition than ever known before.

All roads in Brazos county are passable and have been every day, despite the heavy rains.

Mr. Bryant was in the Statler Hotel in St. Louis when the terrific tornado struck there. He says the wind blew in at 90 miles an hour. He did not visit the scene of the disaster.

He was so busy while there that he did not have time to attend a ball game or show, he claims.

Warn Farmers to Keep Eyes On Weighers

(By Associated Press)
WASHINGTON, Oct. 3.—Material cash losses are suffered when farm produce is weighed with a high balance, the department of agriculture warns.

Weighing is often done rapidly to keep the onlooker from seeing the weight is short, even 10 or more pounds on the draft. The beam just starts to move when the weigher quickly arrests it by throwing the latch at the end of the beam.

Nurse Advises WEAK, RUN-DOWN WOMEN To Take Cardui

"I have known of Cardui for nearly twenty-five years," says Mrs. Selma Meisner, 1072 Harrison Ave., Beaumont, Texas. "During that time, I have taken it several times and have frequently recommended it to others, for it is a splendid medicine and I am glad to give people the benefit of my experience."

"I have been a nurse for several years and have often come in contact with patients who were run-down and weak. Often I have told sufferers of Cardui, and the way I, myself, had been helped after taking it, and advised them to give it a trial."

"I first took Cardui because I was awfully run-down. I had no appetite, and was weak and listless. It was hard to keep going under such conditions, and I looked for something which would help me."

"I had read of Cardui and decided to try it. After taking it, I improved so much that I have taken it since whenever I needed a tonic."

(From Monday's Daily)

District court will be in session for two weeks.

Dr. McCain of Omaha Held Poultry Clinic At Kurten Meeting

Notwithstanding the muddy roads and the threatening weather a large number of Kurten people turned out Saturday night to hear Dr. E. A. McCain of the Geo. H. Lee Company, Omaha, Nebraska, address being largely confined to diseases common to poultry.

Dr. McCain stated that he could not help but observe as he passed through Texas the neglected opportunity in the poultry industry for great revenue.

The climate and nearness to markets being in favor of Texas as a poultry producing center, he said. "People ought to eat more eggs, from one and a half to two eggs per person a day, and the reason," he said, "they do not eat more eggs is that eggs are not fresh and that they are not put on the market in such a condition as

will encourage greater consumption."

Dr. McCain's familiarity with the characteristics of the various poultry diseases attested his long experience as a veterinarian, and he mentioned sanitation as the outstanding essential in all poultry raising.

The fowl prepared for post-mortem examination showed that it

had pin worms, round worms, and tape worms. These he said, could be gotten rid of by individual dosage.

Preceding the lecture the local people put on a very interesting program under the direction of Mrs. Maggie Kelly, one of the teachers in the school.

TABOR TALES

PROF. R. L. HEWETT, EDITOR

HERE AND THERE WITH THE EDITOR

Writing for a newspaper is a great job, but it takes time, and sometimes minutes are hard to spare. Nevertheless the editor has earnestly undertaken to write a column or two each week, and to fall down now would be "too bad". It might just as well be admitted now—had we not better say emphasized—that the Tabor Times was never conceived of as a paper written exclusively by one person. That is the reason that from the very beginning we invited others to contribute articles and send them either to us or to the office at Bryan. We were, therefore, very agreeably surprised in last issue to find an article from Cottonwood that we knew nothing about before reading the paper.

Here let us take time out a few moments to remark that just such things as these are the very kind of things we are looking for, a page or two from different ones among us will add fuel to the fire. Just now we need more camp fires. It is almost poetical to think of the flickering of such lights playing around us. The chatter from among us should rise in volume till it sounds like a chorus of squirrels after the sun has warmed the forest where rain has fallen.

It might be opportune here to say—but quietly, and O, so softly—that Cottonwood is putting it all over Alexander when it comes to "pep and vim" in getting things in the columns about themselves. This is favorable publicity and comes from the sound theory that it is a poor dog, and a blessed poor one too, that won't wag its own tail. Possibly everyone is waiting for the other fellow to take the start, which is not good policy at all excepting in leading maybe. On second thought, maybe not; but this is getting far off the subject.

Some, doubtless, wonder why the editor does not take the time and the ink. It is for the very fact that the editor is editor that he sits as impartial and wise as a judge on his bench. It is for him to suggest only the store houses of good seeds and to winnow a little chaff, not to say from whose particular place the seed are to be taken.

Please do not fear making a little mistake in grammar. Such things are trivial and can easily be corrected.

Within a few weeks we hope to publish in these columns the lives of some of the leading old citizens of this community. Right here is where we had better stop for a moment to consider that this week and next week are the last opportunities we shall have to get in on the "Bryan Weekly Eagle" at the bargain price offered patrons of the school. Every school patron should subscribe for this paper. Just last week a Houston paper made mention of our columns as something original and with great promise.

And this leads the editor back to himself. He would much prefer to write something else, but alas, cannot think of anything so important. Sunday before last, he and Mrs. Hewett took dinner with Mrs. Walker near Alexander church. We could talk of many things, but the most wonderful of these were fried chicken and chocolate pie. Greater than these was the pleasant afternoon.

Having arrived here without fire arms and feeling somewhat lonesome Saturdays, last Saturday, alone, the editor struck out towards Giddings on the Austin Road some seventy-five miles with the good intentions of returning that night. All of which reminds us that man proposes and God disposes, for Saturday night and Sunday morning it rained from Tabor to Giddings a heavy rain, so that the return in company with the father-in-law, one W. B. Gantt, who used to buy and drive cattle all over this country from Austin to St. Louis, was muddy at times to say the least. This would not have been so bad, however, it had not been necessary at times to dismount and come in close contact with the mud. Such was not often the case, but too often we think on such roads and in such weather. The pretty little hundred pound pig and the eleven hens and one old rooster became serious problems at times. Then there were a bushel of ear corn, three flat irons, a hat full of persimmons gathered by the road, and my favorite fowling piece. Having picked up fifty pounds of ice and an ice cream freezer we arrive safe and sound; that is, all but the persimmons, some of which were badly squashed, in my hat, too, ice cream, a warm supper, and a hot bath in the large wash tub, and bed. Ah, this is a little bit of Heaven!

She sat and wept beside his feet; the weight Of sin oppressed her heart; for all the blame, And the poor malice of the worldly shame, To her was past, extinct, and out of date; Only the sin remained—the leprous state; She would be melted by the heat of love, By fires far fiercer than are blown to prove And purge the silver ore adulterate. She sat and wept, and with her untressed hair, Still wiped the feet she was so blessed to touch; And he wiped off the soiling of despair

From her sweet soul, because she loved so much. I am a sinner full of doubts and fears; Make me an humble thing of love and tears.

—Hartley Coleridge: Multum Dilexit.

COTTONWOOD B. Y. P. U.

(By David Bunting)
Everybody enjoyed the wiener roast at Cottonwood church last Friday night. We had plenty to eat and plenty of good music furnished afterwards by a tip-top fiddler, Mr. John Barnes; a real guitar player, George Harrison; and a piano player that can not be beat when it comes to old time playing, Mrs. J. T. Closs.

JOKES

Don't Need the Help.

The colored preached was helping one of his members to repair the church roof. All at once he lost his footing and began to slide down the roof. It was some distance to the ground and the fall would have been pretty hard. As he started down the roof he began to pray. He said: "Oh, Lawd, save me quick; Oh, Lawd, ketch me; Oh Lawd—, About that time he struck a nail which hung his pants and stopped him, whereupon he exclaimed: Nebber mind, Lawd, I's cotch on a nail".

Teacher: "What do you call the line from the north pole to the south pole?"

Woodrow Walker: "It is an imaginary line".

Teacher: "Woodrow, can you hang clothes on that line?"

Woodrow: "Yes mam".

Teacher: "What kind of clothes?"

Woodrow: "Imaginary clothes".

Club Notes and Farm News By County Agent C. L. Beason

Pertinent Questions

What is going to be your club project for next year? What are you best prepared to do? What will bring you the most returns in money and self improvement? What does your club need most? These are a few of the questions that you should be thinking about as the year draws to a close. As in the past, club work will offer some wonderful opportunities to boys and girls who have ambition to make good. As some club members stated in his story, club work offers a fine opportunity to meet men and women with a vision—men and women who have achieved success in life and are in position to lend aid and encouragement to boys and girls who come that way. On next Saturday, October 8, the officers of the various clubs of the county will meet with the county agent and the home demonstration agent to perfect a county-wide organization, having for its purpose the greater efficiency of club work in the county, as well as the more rapid self improvement of the individual. Encourage the officers of your club to attend this meeting at 2 p. m., Saturday.

Plant Oats Now

County Agent Beason says that the oats he dusted in some three weeks ago are now coming up, giving great promise of fine winter grazing. These oats were sown in cotton middles after first picking of cotton. If you are going to plant oats, don't wait.

Interest In Terracing

The increased demand for terracing over the county is causing the county agents to quit individual terracing, and instead help groups of farmers who desire to learn how to do the work for themselves. In some counties, the commissioners court is passing orders that no "individual" terracing be done. Whether this order is passed in Brazos county or not, certainly first attention will have to be given to groups of farmers, instead of individuals. You better help organize a group for your community, if you desire to be on the list of those most assured of help. It is a physical impossibility for the county agent to reach each individual farmer.

Change the Slogan

Sam Cavitt, owner of the Cavitt Ranch near Wheelock, says he wants the "Cow, Sow, and Hen" slogan changed so as to include the meek and profit bearing lamb. Mr. Cavitt has found sheep profitable on his farm, and he thinks it would be well for other farmers to try out at least a few sheep, all owners forming a wool growers association so as to pool the wool clip for best prices. Mr. Cavitt is now negotiating a deal having for its purpose the importation of several hundred head of sheep for breeding purposes in Brazos county.

Agricultural Trips

The rules providing for the selection of boys to attend the Educational Encampment at the Dallas Fair restrict the selection this year to boys who have not heretofore attended. This may seem to work a hardship on some, but we are not making the rules. Those who have been ought to know that others will enjoy the trip just as it was enjoyed by winners in past years. Of course, this will have nothing to do with the Chicago trip, or the winning of other prizes at close of the year such as Clover Leaf Lady, and the cash prizes offered by the Chamber of Commerce and others. The Farm Journal will again give \$250 to the club boy having the best individual record, and it is likely that two boys and two girls will be given trips to Washington for best club work done during 1927. There is an abundance of prizes and honor galore for the boys and girls who have the determination to win. Someone asked a great railroad man once what he would rather do in life. His reply was, "I would like to hear a man say a thing can't be done, then jump in with both feet and show him that it could be done." Club boys and girls who have achieved most have been those who have progressed from year to year, meeting defeat, if it come, as a stepping stone to greater success. Don't be a "quitter."

Planting Oats

A. C. Williams states that he means to plant a lot of fall oats to furnish grazing for sheep and other livestock. Oats will pay for the sowing used just as a cover crop. Try out a few acres.

King's Highway

KING'S HIGHWAY, Oct. 6.—The King's Highway school opened on September 26 with a large enrollment. Mrs. R. B. Hearne is serving her third term as principal. Mr. and Mrs. Joe Roach are the other two trustees. Wm. Bush who has been trustee for 20 years has resigned and Adolph Kopetsky was appointed in his place. B. W. Hardin and Geo. McDonald are the other trustees. The school building, including windows, was thoroughly cleaned; the yard has been cleared of weeds and a new well with a substantial pump put into commission. Some fine new shades were installed in two rooms. Reba Kelly, one of the most popular girls, has gone to Hearne for

the winter term of school. Calvin Kirkendall has gone to Houston in search of work. Minnie, Jettie, and Lorena Nash, Alma and Dudolph Kindt spent Sunday evening with Mr. and Mrs. R. R. Hearne.

Grant, George and Sam McDonald and families attended the funeral of the wife of their brother, Claude, of Houston, at Cottonwood.

W. P. Nash of Hearne, has been visiting his son, George, this week. Doris Fay Hearne spent the week-end with Mr. and Mrs. Wm. Bush.

This community was visited by a heavy rain with considerable wind on Saturday night.

Roads In Central Texas Improved-- Says Houston Man

Boyd W. Gatewood, staff correspondent for the Houston Post-Dispatch who is writing a series of articles outlining the maintenance program and policy of the new highway commission has the following to say in his article on Sunday:

Engineers Pleased

In my survey of the system I have found the division engineers greatly pleased with the new accounting system recently inaugurated by the commission and about which I shall deal more fully in another article. The opinion of the engineers, expressed by them, is epitomized thus:

"The new accounting system is very effective. Through the new plan the highway department at Austin through the division engineers, is able absolutely to control every expenditure to be made on the highways of Texas. It is as much more efficient over the old system as the difference between the bookkeeping of a country grocery store and that of a department store in New York."

John E. Blair, the division engineer of No. 17 division, headquarters at Bryan, has probably the most difficult division in the state to maintain, certainly the most difficult I have seen.

Up Against Problem.

Blair's division includes Free-stone, Leon, Madison, Walker, Grimes, Brazos, Robertson, Milam, and Burleson. Any one at all familiar with road conditions in those counties, particularly the eastern tier of them, knows what Blair must have been up against when he took over the reins there six months ago.

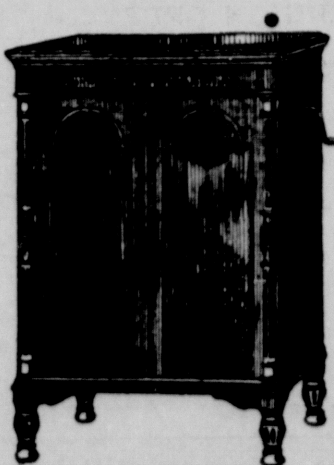

If the personal equation may be pardoned for purpose of information, it was the writer's experience to traverse the roads in Madison county and Robertson and Milam more than a year ago. They were abominable. I made the same course recently, and found conditions astonishingly improved. One can speed over the chief highways in that division now and keep one's hat on, where previously it couldn't be done and keep one's teeth in.

Blair still has a problem in Montgomery county, or rather B. K. Patton, the division engineer of the adjoining division, has it since he volunteered to maintain that neck across the corner of Montgomery county, marking the Shreveport airline, an important artery. That stretch of road is frightful and there is little encouragement for early improvement. Montgomery county is lukewarm on the proposition of spending money on it, although the commission has agreed to stand the lion's share of the burden.

Rainbow Girls Install Officers For Assembly 41

Bryan Assembly No. 41, order of the Rainbow Girls, installed a new board of officers at an open meeting last night at the Masonic building. The lodge and reception rooms had been prettily decorated with autumn's brightest flower, Queen's Wreath.

Preceding the installation ceremonies the punch bowl imbedded in a mound of Queen's Wreath, yielded up refreshing draughts of peace.

'Dad' Short Talks To Baptist Class

A. K. "Dad" Short of Houston, was a week-end business visitor in Bryan, addressed the Business Men's Bible Class of the First Baptist Sunday School, Sunday at Carnegie Library, bringing a message that was vital and interesting, as he spoke to the men of the Bible as a Book of all Knowledge.

Being associated with the agricultural life of Texas, as few men are, and in close touch with the farmers and their problems, "Dad" Short, has learned many wonderful lessons of "men and affairs", and he brought to the Business Men's Bible class many whole-some thoughts that will not soon be forgotten by those who listened to his words of wisdom.

"In the Bible", said the speaker, "you can find a solution for all problems. The same things that hinder us now, are mentioned in the Bible, as hindering the people of that long ago day." The point the speaker pressed home was, that every individual should "search the scriptures" for within the sacred pages of The Book, may be found just the information each one needs, and just the inspiration

the encouragement, that the heart of every man, must have to "carry on". The class appreciated greatly, Mr. Short's earnest words and at the close of the lesson hour, he was many times assured of the pleasure and profit, which his visit had given the members of the organization. He was cordially invited to make a return visit, very soon.
